

White-Label CFO Services

Partner Pricing Packages for Small Business Clients

TARGET CLIENT	\$75,000–\$750,000 annual revenue
COMMISSION	15% of gross

Entrepreneurial appeal

Small business entrepreneurs have a lot to worry about — staff, products, services, customers, marketing. After all, that's why they hired you to do their bookkeeping. The next step in adding sophistication to their management is a financial leadership partner. That is the role White Label CFO services play.

You own the client relationship. We provide mini-CFO services under your label. By contracting out the work, you add profit to each relationship without adding headcount. We coordinate the best tools for each client. With custom reporting and guidance, clients come out stronger and can grow — which reinforces your relationship, lengthens tenure, and increases monthly revenue.

These packages are designed to be:

- Price-conscious for small business owners
- High-value relative to traditional CFO pricing (\$2,000–\$6,000/month market range)
- Scalable and easy to deliver on a recurring basis
- Clear and actionable for non-financial business owners

Your firm's opportunity

When you partner with this white-label desk, you can take the offering deeper with every client. Better outcomes deepen the relationship. That supports retention and opens further work as clients hire, expand, raise capital, or look at acquisition and exit.

The benefit is not only a revenue lift for your firm. It is longer relationships as clients become capable of hiring more people, expanding operations, seeking funding, and exploring M&A or retirement.
